Photo editing software: Photoshop, Lightroom

Miscellaneous: Node.js, Git, Jira, WordPress, Microsoft

Office Suite, Jupyter Notebook

Work Experience

Computer Science/Data Science Trainee

09.2022 – present

Axle Informatics

- Sorted files (using python script that I implemented) and tested database files which work and which do not.
- Implemented Jupyter notebook to demonstrate the ability to update Neuroglancer viewer state using Ipywidgets without viewer URL updating every. Made it possible to use Neuroglancer methods to do changes in viewer state on Neuroglancer server side directly.

Professional Freelancer

03.2015 – present

Ambrolla

- Did small projects for startup companies using: JavaScript, Bootstrap, React.js, and Node.JS.
- Managed and promoted ambrolla.com website and photographer using SEO tools such as AdWords, Facebook, Instagram. Website's design was made using Jekyll.
- Retouched and edited photographs using Photoshop CC and Lightroom CC.

Newborn Photographer

03.2019 – 03.2020

Bella Baby Photography

- Worked directly with clients in the Shady Grove hospital on daily bases by providing customer service and as a result there were inspiring sales.
- Retouched and edited photographs using Lightroom CC.
