Jira, WordPress, Microsoft Office Suite

Work ExperienceComputer Science/Data Science Trainee

09.2022 – present

Axle Informatics

- Implemented CLI tool to sort and merge R and Markdown files using Python and tested Shiny apps that are based on output of CLI tool which work and which do not
- Implemented Jupyter notebook to demonstrate the ability to update Neuroglancer viewer state parameters using Ipywidgets and undocumented Neuroglancer methods instead of viewer state updating using JSON object as query string parameter in URL. Made it possible to use Neuroglancer methods to do changes in viewer state on Neuroglancer server side directly considering pretty limited Neuroglancer documentation
- Implemented Streamlit app to demonstrate how can it be used with ML model to provide user friendly UI to specify initial parameters and cache trained model between runs if parameters weren't changed and refresh randomly selected samples to apply model for them

Professional Freelancer

03.2015 – present

Ambrolla

- Did small projects for startup companies using: JavaScript, Bootstrap, React.js, and Node.JS.
- Managed and promoted ambrolla.com website and photographer using SEO tools such as AdWords, Facebook, Instagram. Website's design was made using Jekyll.
- Retouched and edited photographs using Photoshop CC and Lightroom CC.

Newborn Photographer

03.2019 – 03.2020

Bella Baby Photography

- Worked directly with clients in the Shady Grove hospital on daily bases by providing customer service and as a result there were inspiring sales.
- Retouched and edited photographs using Lightroom CC.
